KILO

Machine Guard

Tested Impact Energy
according to **PAS13**

102.700 Joule

At 22.5° Impact, 5.4 km/h (3,36 mph)
and 3.560 kg (7848 lbs) on a
C20/25 concrete floor and
max. force to bolt at 21 kN.

Description

The KILO Machine Guard by d-flexx is a highly versatile protection solution, designed to safeguard machinery. Combining the robust base of the ECHO series with the top segment of the DELTA series, the KILO unites traffic barrier strength with the advanced protective and visibility features of the DELTA guard.

This hybrid design ensures that the KILO serves as both a reliable traffic barrier and an effective machine guard, offering a heightened level of safety by preventing accidental collisions and clearly marking hazardous areas. Compared to the FOX-TROT, the KILO provides more comprehensive protection with its dual functionality—absorbing impact while also enhancing safety awareness.

Ideal for high-traffic industrial environments, the KILO is easy to install and can be customized to fit specific machinery setups. Its durable construction ensures long-term performance, making it a cost-effective solution for machine protection and workplace safety.

Technical Information

Operational Temperature Range:	-40°C up to +50°C / -40°F up to +112°F
Ignition Temperature:	350-360°C / 662 - 680°F
Flash Point:	350-360°C / 662 - 680°F
Toxicity:	Nontoxic
Chemical Resistance:	High-ISO / TR 10358
UV Stability	Gray scale: 5/5
Changes to material after 5 years:	Blue Wool scale: 8/8 Tensile strength: No changes
Static Rating (surface resistivity):	10 ¹⁵ -10 ¹⁶ Ω
Standard Warranty:	5 Years
Fixations:	Concrete screw, Zinc coated, Size Ø12x80 mm
Deflection zone:	250mm / 9,84in
